

# MARINE ANTIOXIDANTS

PREPARATIONS, SYNTHESSES, AND APPLICATIONS

EDITED BY

SE-KWON KIM • KYUNG-HOON SHIN • JAYACHANDRAN VENKATESAN

# Contents

List of contributors	xv	2.4.2 Antioxidant peptide purification and identification	18
<b>1. Marine-derived antioxidant peptides: properties and applications</b>	<b>1</b>	<b>2.5 Antioxidant potential analysis of marine peptides and proteins</b>	<b>19</b>
<i>David C. Kemp and Jung Yeon Kwon</i>		2.5.1 DPPH radical-scavenging assay	20
<b>1.1 Introduction</b>	<b>1</b>	2.5.2 Hydroxyl radical scavenging	20
<b>1.2 Structure and antioxidant properties of marine peptides</b>	<b>2</b>	2.5.3 Superoxide anion radical analysis	20
1.2.1 Primary structure and antioxidant properties	2	2.5.4 Linoleic acid autoxidation inhibition activity	20
1.2.2 Secondary structure and antioxidant properties	3	2.5.5 Trolox equivalent antioxidant capacity assay	21
<b>1.3 Applications of marine-derived antioxidant peptides</b>	<b>4</b>	<b>2.6 Applications of marine antioxidant proteins and peptides</b>	<b>21</b>
1.3.1 Food applications of marine antioxidant peptides	4	<b>2.7 Conclusion</b>	<b>22</b>
1.3.2 Nutritional/physiological applications of marine antioxidant peptides	5	<b>References</b>	<b>22</b>
<b>1.4 Conclusions</b>	<b>8</b>	<b>3. Implications of bioprospecting marine diversity and sustainable production of bioactive compounds</b>	<b>27</b>
<b>References</b>	<b>8</b>	<i>Bhavika Batra, Deeksha Sharma, Debajyoti Bose, Vijay Parthasarthy and Arjun Sarkar</i>	
<b>2. Antioxidant properties of marine proteins and peptides</b>	<b>11</b>	<b>3.1 Introduction</b>	<b>27</b>
<i>Prachi Vibhute, Akshaya Radhakrishnan and Sivakamavalli Jeyachandran</i>		<b>3.2 Bioprospecting marine natural products</b>	<b>29</b>
<b>2.1 Introduction</b>	<b>11</b>	3.2.1 Role of marine species	29
<b>2.2 Sources of antioxidant peptides from marine life</b>	<b>12</b>	3.2.2 Properties of bioactive compounds	31
<b>2.3 Mechanism of antioxidant potential of marine peptides</b>	<b>14</b>	<b>3.3 Industrial applications of marine biotechnology</b>	<b>32</b>
2.3.1 The Antioxidant activity and peptide characteristics relationship	15	3.3.1 Antitumor compounds	32
<b>2.4 Production and isolation of antioxidant peptides</b>	<b>17</b>	3.3.2 Antivirals	34
2.4.1 Production of antioxidant peptides using enzyme hydrolysis	17	3.3.3 Analgesic	34
		3.3.4 Enzyme inhibitors	34
		3.3.5 Nontoxic antifouling agents	35
		<b>3.4 Innovative technologies for isolating novel products</b>	<b>35</b>
		3.4.1 Metagenomic approaches	36
		3.4.2 DNA-sequencing and bioinformatic technologies	37

3.4.3 Spectroscopic techniques: two-dimensional nuclear magnetic resonance spectroscopy and mass spectroscopy	38	5.6.2 Seaweed antioxidants in the management of cardiovascular disease	65
3.4.4 Aquaculture and fermenter cultivation techniques	38	<b>5.7 Seaweed antioxidants in the management of arthritis</b>	<b>66</b>
<b>3.5 Advances in biotechnology approaches</b>	<b>39</b>	<b>5.8 Nanotechnology and marine-derived metabolites in mitigation of oxidative stress</b>	<b>66</b>
<b>3.6 Challenges in producing and isolating marine natural products</b>	<b>40</b>	5.8.1 Drawbacks of marine metabolites in mitigating oxidative stress—induced diseases	66
<b>3.7 Future perspective</b>	<b>41</b>	5.8.2 Applications of marine polysaccharide nanoparticles in circumventing oxidative stress—induced diseases	67
<b>References</b>	<b>42</b>	<b>5.9 Future perspectives and challenges</b>	<b>68</b>
<b>4. Antioxidants obtained from marine sources</b>	<b>45</b>	<b>5.10 Conclusion</b>	<b>68</b>
<i>Namrata Nailwal, Nirav Bhatia, Aaliya Ali, Alveera Ansari, Radhika Raheja, Angel Godad and Gaurav Doshi</i>		<b>References</b>	<b>69</b>
<b>4.1 Introduction</b>	<b>45</b>	<b>6. Supercritical extraction of marine antioxidants</b>	<b>73</b>
4.1.1 Antioxidants	45	<i>Beatriz Díaz-Reinoso, Elena M Balboa, Andrés Moure and Herminia Domínguez</i>	
<b>4.2 Marine organisms: a potential source of antioxidative molecules</b>	<b>46</b>	<b>6.1 Introduction</b>	<b>73</b>
4.2.1 Algae	46	<b>6.2 Major marine carotenoids</b>	<b>74</b>
4.2.2 Sponges	48	<b>6.3 Carotenoids as antioxidants</b>	<b>74</b>
4.2.3 Mussels	50	<b>6.4 Supercritical fluid extraction, fundamentals, and operational conditions</b>	<b>76</b>
4.2.4 Sea cucumber	50	6.4.1 Initial pretreatment of the solid	79
<b>4.3 Conclusion</b>	<b>52</b>	6.4.2 Pressure and temperature	80
<b>Acknowledgment</b>	<b>52</b>	6.4.3 Modifier	81
